HYDROGLARE™

Our new Hydroglare™ sunglasses have a microthin vacuum coating uniformly sealed to the surface of our quality polarized lenses. The result is an advanced polarized lens that repels water, oil and dust to greatly enhance performance and durability.

Impact Resistant Lenses
Lifetime Warranty

MOTOREYEZ™

Wind and debris are the true demons of the road. Our Motoreyez™ collection was developed to help neutralize the wind, while our polycarbonate lenses protect against high velocity projectiles and debris. Feel free to put the pedal to the metal!

Naturally Colorado

MShades is powered by the sun. We believe in protecting where we play. Our HQ building was designed with foam core concrete block engineering that provides an R Value Range of 22-40, energy-efficient swamp cooling, as well as skylights. Additionally, the building has 62 solar panels that will provide up to 10,000 watts at peak capacity. Annually, the solar photovoltaic (PV) system, which is quiet and produces clean energy with no emissions, will save over 13,200 Kilowatt-hours. Installing one kilowatt of solar power is the equivalent of planting 50 trees.

Lead Free Paint

All products in the Mshades collection are certified to meet the California Prop 65 standards and Consumer Product Safety Improvement Act for zero lead content.

Warranty

All our products are covered by warranty, for the original purchaser, against defects in material and workmanship for the lifetime of the product. Abused products are not covered under warranty.

Caution: While Mountain Shades, Inc. MShades sunglasses are impact resistant, they are not safety glasses, are not shatterproof and do not provide unlimited protection against eye injury from severe impacts. Pitted or scratched lenses reduce vision and reduce impact resistance and should be replaced. Do not use MShades sunglasses for night driving.

ANSI Standards

All Mshades products provide 100% UV protection and meet the ANSI Z80.3 standards for UV protection, impact resistance and optical clarity.

All lenses except polarized lenses are polycarbonate material for enhanced UV protection and premiere impact resistance.
